

Arapahoe Bowling Center – Social Distancing Rules / Bowling Format

Social Distancing

- Entry is only allowed through the front door. Side doors will be locked for entry and are accessible for exit only.
- Upon entry, bowlers must have a face covering on and their temperature will be taken.
- Temperatures above 100.3 will not be allowed to enter.
- No spectators will be allowed to enter.
- Per Tri County Health, bowlers are required to wear a face covering at all times in the center with the following exception:
 - When you are sitting at your table eating and/or drinking
 - Note: when you are taking your turn bowling, the following mask exemption may be available to you: Executive Order 2020 138 Article M – 3 “You may remove your mask when you are exercising alone or with others and a face covering would interfere with that activity.”
 - We are assuming that bowlers will remove their face covering during their turn (if they chose to) and either sit back at the table with their food and drink or will put their mask back on.
- In the event that someone enters the center having COVID, the necessary shutdown period will be determined on a case by case basis and Tri County Health will attempt to remedy the situation with little to no shut down period.

Bowling Format

There will be few known exceptions. We ask that you please be flexible when this format cannot be followed completely.

- The team assigned to the odd numbered lane (left lane) will be expected to sit at the tables in the settee (tiled area).
- The team assigned to the even numbered lane (right lane) will be expected to sit at the tables on the concourse (carpeted area).
- The team starting on the left lane will complete their first frame in its entirety.
- The team starting on the right lane will complete their first and second frames in their entirety (each bowler will bowl their second frame immediately after completing their first frame without waiting for their team to complete the first frame).
- The team that started on the left lane will then complete frames 2 (right lane) and 3 (left lane). This process will be followed until the game is complete.
